**MEMORANDUM FOR: Director of Central Intelligence****SUBJECT : Survey of Technical Surveillance Countermeasures  
(Harvey Report)****REFERENCE : Memo dtd 9 Feb 67 for DD/P, DD/S fr DCI, same sub**

1. This memorandum is for your information only.

2. In reference memorandum you requested certain action by the DD/P and the DD/S in the field of technical surveillance countermeasures. An arrangement has been established which we feel will more than satisfy your concerns pertaining to cooperation, coordination and communication between the respective components involved in this field. The arrangement arrived at by the DD/P and the DD/S establishes the following program:

- a. [ ] Deputy Director of Security, is detailed directly to the DD/P to become the responsible officer for the development and implementation of a DD/P physical and technical security program for overseas stations. [ ] [ ] DD/P are assigned to assist [ ] in the performance of his responsibilities.
- b. [ ] will be expected to develop a comprehensive program for the security of DD/P overseas installations and establish the Headquarters direction and coordination to ensure the successful implementation of the program. [ ] will draw upon the interested components of the Agency for personnel, services and equipment to carry out the coordinated program. In so doing he will ensure the fullest exchange of information and the use of available facilities and services to accomplish the overseas DD/P security program. The offices principally contributing to this program will be the

Offices of Security, Technical Services Division, Office of Communications, CI Staff, FI/D Foreign Intelligence Staff, ORD/DD/S&T and the area divisions of DD/P. It is not contemplated that there will be any transfer of functions and responsibilities from any of the respective components as each has its own specific services to perform which embrace more than the DD/P overseas security program; however, the capabilities, services and personnel of each of these components will be drawn upon in support of this program.

3. The scope of responsibilities being established for  under the command responsibility of the DD/P and in coordination with the DD/S will permit immediate action to be taken on most all of the practical recommendations set forth in the Harvey Report. There appears to be no fundamental disagreement between the directorates as to acceptance and action on the recommendations set forth in the Harvey Report. There is, of course, a difference of opinion with Mr. Harvey on the totality of some of his recommendations.

4. We have every confidence that this is a major step forward utilizing total Agency capabilities in a most complex and intricate field which will permit the development of an aggressive and highly sophisticated technical security program for the Clandestine Services.
